## EdTerra Go Direct Camps:

Our camps have been handpicked by our team of outdoor adventure experts. For each campus a team of experts conduct thorough due diligence, ensuring the best of camp infrastructure, safety standards and camp equipment. Each camp is manned by qualified male and female instructors. Most importantly, each camp has a 24x7 doctor on call, essential medical equipment and supplies, and a hospital within 45-90 minutes of driving distance. However, if your child has any special medical needs, be sure to send him/her prepared and inform us of the same.

## Accommodation & Food:

As we teach your child to adapt to the natural environment, we encourage them to experience camp setting in the best possible way. Participants share tents that offer clean, basic sleeping facilities. Some of our campuses do have attached washrooms but most of our camp sites have separate washroom blocks. Boys and girls have separate accommodation and washrooms. EdTerra provides nutritious, healthy and wholesome meals, and the pantry is open to all participants at any time of the day.

## Travel Safety & Comfort:

We respect your concern for safety during travel and EdTerra's operations team ensures safety and supervision at all times. All travel by bus/train/car is done under the supervision of travel experts. We have our pool of trusted vendors who provide well-maintained vehicles and reliable drivers.

## + Safety:

Safety for EdTerra is embedded in each and every process, be it selection of a campsite, hiring of manpower, purchase of equipment, selection of vendors, choice of a route or a design of a program. We at EdTerra constantly work towards ensuring the same.

For our outdoor camps, we have the mandatory first-aid facilities, manpower trained in first-aid, standby vehicle and doctor on call. However, please do note that the participants will be involved in a number of activities and will camp out in the wilderness. Depending on the campus, they may even be near a river. Participants stay in tents and depending on the weather and the altitude, they may be exposed to wet or cold conditions or to other natural hazards. To help us deliver a meaningful experience, please ensure that your child is mentally prepared to participate in the program. Also, please respect our rules and convey the same to your child.
